

Department of Computer and Information Science
CIS 294 – Programming in Visual Basic
Fall 2006

Programming Assignment 1
Posted: 10/03/2006
Due: 10/17/2006

Problem 1 (refer to Exercise 4.10 in the textbook, page 163)

The module should create two **Account** objects and test the methods (**Credit** and **Debit**) and property of the class **Account**.

Deliverables:

- Code for the **Account** class and module
- Screenshot showing the execution of the module (i.e., displayed results)
- Class diagram

Problem 2 (refer to Exercise 4.12 in the textbook, page 164)

Deliverables:

- Code for the **Employee** class and module
- Screenshot showing the execution of the module (i.e., displayed results)
- Class diagram

Problem 3 (refer to Exercise 5.11 in the textbook, page 223)

Deliverables:

- Code for the module (you don't need to create a separate class)
- Screenshot showing the execution of the module (i.e., displayed results)

Textbook:

Visual Basic 2005 – How To Program -, 3rd edition, Prentice Hall (ISBN: 0131869000).

Statement on Academic Conduct:

“The University of Michigan - Dearborn values academic honesty and integrity. Each student has a responsibility to understand, accept, and comply with the university's standards of academic conduct as set forth by the Code of Academic Conduct, as well as policies established by the schools and colleges. Cheating, collusion, misconduct, fabrication, and plagiarism are considered serious offenses. Violations will not be tolerated and may result in penalties up to and including expulsion from the University”.
